

Why Because

They know from actual use that Hood's Sarsaparilla is the best, i. e., it cures when others fail. Hood's Sarsaparilla is still made under the personal supervision of the educated pharmacist who originated it. The question of best is just as positively decided in favor of Hood's as the question of comparative sales. Another thing: Every advertisement of Hood's Sarsaparilla is true, is honest.

No Presidential postmasters in Kentucky will be appointed until after the election. The statement was given out at the Postoffice Department.

Deputy Warden Neat, of the Frankfort penitentiary, has resigned to run for Congress in the Eleventh district, and is succeeded by Dr. A. H. Stuart, formerly of Floyd county.

The State has lost on the Frankfort penitentiary \$235,750.72 and is still losing every day. This does not include the losses on the Edwillo prison and other institutions. This is the report made by a Republican official—Inspector Lester.

"When you vote for Judge S. G. Kiner, you vote for a man of the people, who has made one of the best efforts in Kentucky; you vote for a man who has never speculated in railroad bonds at the expense of the tax payers, and got rich. Corporations have no strings to him. Vote for Kiner.—Morgan County Democrat.

The Courier-Journal says: "From now on until after the election the pension office will be engaged almost wholly in advancing and granting pensions to Ohio applicants. The applicants for pensions from other States will stand a poor chance of getting their claims as much as considered, much less reported. The special examination division of the Pension Bureau, with its hundred of clerks, is kept busy these days going over the papers of the Ohio applicants. One of these clerks stated to-day that his desk was piled up with Ohio invalid pension claims.

In a word, the great office is being prostituted, and the money of the people squandered in order to make votes for the Republican ticket in Ohio. There is not anything new in this, however, for it has always been done under Republican Administrations. The politicians committed here in the name of pensions for the old soldiers would make a book as large as the morning newspaper.

NOT FOR EVERYTHING.

But if you have kidney, liver or bladder trouble you will find Swamp-Root just the remedy you need. People are not apt to get anxious about their health soon enough. If you are "not quite well" or "half sick," have you ever thought that your kidneys may be the cause of your sickness?

It is easy to tell by setting aside your urine for 24 hours; a sediment or settling indicates an unhealthy condition of the kidneys. When urine stands in a glass it is evidence of kidney trouble. Too frequent desire to urinate, scanty supply, pain or dull ache in the back, is also convincing proof that the kidney and bladder need doctoring.

There is satisfaction in knowing that the great remedy, Dr. Kilmer's Swamp-Root, fulfills every wish in relieving weak or diseased kidneys and all forms of bladder and urinary troubles. Not only does Swamp-Root give new life and activity to the kidneys—the cause of trouble, but by treating the kidneys it acts as a tonic for the entire constitution. If you need a medicine you should have the best. Sold by druggists, price 50 cts and \$1.00 or by mentioning, and sending your address to Dr. Kilmer & Co., Binghamton, N. Y., you may have a sample bottle of this great discovery sent to you free of charge.

The Republican politicians have sought to capitalize the recent advances in wheat, cattle and tobacco to the profit of the Administration, claiming all and conceding nothing to the good or ill of nature. If the present Administration caused the rise in wheat, then they are to be held accountable for the three years of drought in India, which has hovered over that country, destroying all vegetation, even the forests. They are responsible then, for the greatest famine that history ever recorded. It is generally understood that Mark would do anything to gain a political point, but who could believe that he would have endorsed the starving to death of over eight million of people in far off India; the destruction of the potato crop in Ireland; or the failure of the wheat crop in Russia and Asia in order to carry the election this fall, in Ohio? Republican speakers and the Republican press have exerted much energy to make fair weather with the farmer, out of the present rise, but the facts are, the price of wheat is much below what it should be, and were our finances in a healthy condition as they were in 1873, the farmer would be getting \$1.50 for his wheat instead of only 85 cents. Conditions were never more favorable to one dollar and a half wheat than now and had the people of India the "grapes," and the people of the United States the money fixed for them by the forefathers, as constitutional money, you would see more smiles and less strife, better stock, better homes; more educated people and a higher standard of citizenship. Supply and demand, when the monetary system of a country is at its normal condition, regulate values. Our present monetary condition is responsible for our 85 cent wheat, other conditions point to a dollar and a half wheat. These silk-stocks and silk-socking gentry, who love to be called gold-bugs, are responsible for

CATHARRH AND MALARIA.

People who are or have been af- fected by catharrh are most subject to the chronic malarial. The ex- planation is this: Malaria is a germ disease, germs find their way into the blood through the mucous membranes. If the mucous membrane are healthy the germs can not enter the blood. This is why some people do not get malar- ia. But if the membranes are af- fected by catharrh, even slightly, the malarial germs find easy ac- cess into the blood. Pe-r-u-a is the remedy. It not only destroys malarial germs, but restores the mucous membrane to health, so that no more germs can find entrance. Peru-a is the re- liable remedy for chronic malar- ia. Borders and wife, of Louisa, will visit his daugh- ter, Mrs. Angie Burgess, this week. Uncle Tom Kise got a pension a few days ago, and bought him a new buggy. See him, with Aunt Liz, out buggy riding! Some one, on mischief bent, broke a corner off a \$1500 mon- ument belonging to H. H. Borders, last Sunday. Also, some boys, ranging from 8 to 14 years, went to the church house where three of them had a big fight. On Monday morning there was a very dirty sentence on the black- board in the church where our pub- lic school is being taught. Now, if we had a Sunday School, perhaps we would not have quite so much meanness, as we could then keep it out of our church, because we then would be there ourselves. Pole Chapmas was up here elec- tioneering one day last week. Now, SANDY NEWS, don't say a word about the golden calf. I am not a "dimmyer" and I'm not go- ing to vote this year but if I did I'd scratch my Heket once and vote for Uncle Jim Preston and I know some that are going to vote for Uncle Jim who rarely scratch their heads, so don't say a word until after the election, then you may say, "I told you so!" If you want to and can. Uncle Jack Castle will move to his new home in Louisa, and For- est Childers will move into the house just in Uncle Jackie vacates. It is considered quite a compli- ment to have a namesake and as the very small people all have names, a young lady requested a red calf with a motley face named John: now our days for sentiment being past, we demand that she arise and explain whether it is in- tended for a compliment to the calf or to John, before we have that calf christened. MEANDERING MIKE.

PAINTSVILLE.

G. C. Middaugh has been ap- pointed Police Judge of Paints- ville and received his commission and will at once qualify and enter upon the discharge of the duties of his office. C. M. Whit will qualify as Marshall and we will have law and order enforced here- after. There are three or four parties said to be selling whiskey in town and we think they would do well to close their shops. John M. Dags, deputy sheriff, who left here some time ago for Denver, Col- orado, with requisition papers for Jay Droughan, is expected home this week. It was the rumor that Droughan killed Ben Cuaning- ham in this county in March, 1891, by shooting him in the back with- out a word or a moment's warn- ing. Droughan left this county the same night and went to Colorado, chang- ing his name to Hiram Baker. Le- tter Droughan a cousin of Jay, killed a man by the name of Hull, in Knott county, and also fled to Colorado and assumed the name of John Bates. The two entered into a partnership in business, which they ran successfully until a short time when they fell out and Jay killed Droughan and this led to the arrest of Jay Droughan for the murder committed in this county. The Paintsville graded school is progressing nicely with Prof's. Stapleton and Tolbert and Misses Pauline Spradlin, Ora Rains and Car- line Stafford as teachers. There are 265 pupils enrolled, most of whom are attending regularly. The ses- sion will continue five months af- ter the public free school closes. We have one of the finest school buildings in Eastern Kentucky, and it is well furnished and properly ventilated. Much honor is due to the citizens of Paintsville, for the erection of such a magnificent ed- ifice for educational purposes. We have three interesting Sunday Schools and three churches.
